GOALS AND ACTIVITIES

Provide a forum for information exchange to facilitate the advancement and sustainability of AZGeo as the state geospatial clearinghouse

- Continue to secure resources for sustainable and long-term maintenance of AZGeo and curation of its content
- Assess opportunities to expand and improve AZGeo continuity and functionality
- Collect and assess feedback from the AZGeo User community

- Coordinate and support two user group meetings per year.

Facilitate the development of best practices, data standards, and specifications for AZGeo contributors

- Coordinate and collaborate with local, regional, tribal, and state organizations and AGIC Committees to develop recommendations for best practices and data governance associated to AZGeo
- Document and share outcomes for best practices with the AZGeo User Community

Facilitate Interagency Coordination and Encourage Geospatial Data Sharing utilizing AZGeo

- Serve as a forum to facilitate informational exchange between AZ public universities, state, federal, tribal, regional, and local governments, the private sector and professional associations.
