

October 20, 2022 | Arizona Evacuations WG Meeting Minutes

Attendees: Ashley Ahlquist, Benjamin Coker, Brian Brady, Leslie Stovall, Sara Lucas, Sage Donaldson, Tom Homan, Jon Jones, Patrick Dongarra, Shiloh Johnson, Paul Rosevear, Wes Dison, Morgana Laurie

Introductions

Outreach efforts: bringing in Sedona evacuations planning, with coordination for a short presentation to the group sometime around the new year to align efforts and get feedback

Discussion of attribute fields and finalizing domains:

County/Tribe may have to be reworked to account for cross-jurisdictional single zones (example: Telegraph Fire)

Jurisdiction = authority issuing the order; will be left open as by state law it is the County SO or Tribal authority (per Wes), however urban areas such as Maricopa have a lot of instances delegated authority to municipalities

Close to finalized through "STATUS" field

Action items:

- GIS: Continue work on the schema spreadsheet: add notes, fields, or suggest modifications or deletions as needed
- All members: connect with county Sheriff's Offices, EM, and any others who are doing evacuation planning if applicable – aligning efforts and making sure our dataset will meet needs
- County EMs: connect offline for customer service reps for alerting notifications vendors (RAVE, Everbridge, Genasys, etc.), DEMA and Counties will get more information on the data fields used by these vendors
- GIS: Join the AZGeo Group (if not already):
