## GOALS AND ACTIVITIES

Provide a Forum and Structure to Discuss Current Geospatial Data, Initiatives and Technologies

- Coordinate demo's or presentations for each meeting demonstrating AGIC Committee/Workgroup activities, based on feedback from the Data Committee
- Support the development of a Data Committee Work Group track at the AGIC Symposium
  - Each Work Group to provide an abstract(s) to the Conference Committee on illustrating current activities for a Data Committee track
- Identify resources required to carry out proposed activities

## Facilitate Interagency Coordination and Encourage Geospatial Data Sharing

- Serve as a forum to facilitate informational exchange between state, federal, tribal, regional, and local governments, the private sector and professional associations, in support of the annual AGIC Strategic and Business Direction.
- Promote geospatial data sharing, data project collaboration, and the inclusion of data in the public domain, to maximize the benefit of AZGeo as a state clearinghouse data-sharing platform.
- Encourage the development, use, and sharing of standards and/or best practices
- Coordinate activities with appropriate AGIC committees as required
- Identify and coordinate funding and mentorship opportunities to assist rural counties in maintaining Arizona framework datasets.
