Workgroup

Council

AGIC Council

Committee

9-1-1 Committee Sandra Dyre & Brian Bond

The mission of the 9-1-1 Committee is to provide a forum to promote and support interagency coordination on matters related to 9-1-1 geospatial data, data sharing, and applications, and facilitate 9-1-1 educational outreach and best practice methods to state, federal and local government agencies.

The committee accomplishes this by:

- Providing a forum and structure to discuss items related to a 9-1-1 system to support current and Next Generation 9-1-1 geospatial data, initiatives and technologies;
- Facilitating and coordinating statewide data sharing to support 9-1-1 systems;
- Building a repository of educational tools to foster education of 9-1-1 Dispatchers to understand GIS map functions in a Next Generation 9-1-1 environment.

Workgroup

9-1-1 Dispatcher Education Sarah Hess

The 9-1-1 Dispatcher Education team is developing a story map to help answer frequently asked questions from 9-1-1 Dispatchers.

9-1-1 Data Sharing Brian Bond

The 9-1-1 Data Sharing team is building a repository of data sharing tools and documents to support communities contributing data to 9-1-1 for statewide data development efforts.

Council

AGIC Council

Committee

Administrative and Legal Committee

Eric Feldman & Shea Lemar

The mission of the Administration and Legal Committee is to support the AGIC Council in matters surrounding its administration and statutory responsibilities. The committee accomplishes this by:

- Tracking Council membership and promoting full participation;
- Tracking and promoting sound Council finances;
- Facilitating interagency coordination in support of Council goals;
- Assisting in the development and review of requirements and standards for a variety of projects;
- Interfacing with other organizations that have an interest in the geospatial community of our state.

The Administration and Legal Committee works with the Arizona State Land Department and other AGIC committees to further the agenda of the Council as set in statute.

Workgroup

AGIC Manual

Lucas Murray

The AGIC Manual workgroup is focused on updating the AGIC manual with current information and procedures.

Council
Committee
Workgroup

AGIC Council

Conference Committee Steve Whitney & Jami Dennis

The mission of the AGIC Conference Committee is to conduct an annual symposium that provides for geospatial information exchange, education and training. This is achieved by meeting the following goals:

- Conducting an annual multi-day conference in support of AGIC’s mission, goals, and objectives;
- Maximize attendance and sponsorship opportunities;
- Provide content in alignment with AGIC goals and current areas of interest.

Maps & Apps Shawny Ekadis & Cheryl Thurman

The Maps & Apps workgroup works towards maximizing AGIC conference attendee participation in the AGIC’s Maps & Apps Challenge.

AGIC Council

Data Committee Howard Ward & Jenna Leveille

The mission of the Data Committee is to promote geospatial data sharing and appropriate strategies to support AZGEO, facilitate interagency coordination of geospatial data sharing to enhance and support state, federal, and local government business systems, and to incorporate user requirements on matters related to geospatial data, services, standards, applications, and activities to improve data sharing and use. The committee accomplishes this by providing a forum and structure to discuss current geospatial data, initiatives and technologies; facilitating interagency coordination and encouraging geospatial data sharing; and developing a Data Management Plan to facilitate data sharing and use of AZGeo as Arizona’s statewide geospatial clearinghouse.

Standing items of discussion include:

- Statewide data coordination
- National Agriculture Imagery Program (NAIP)
- Three Dimensional Elevation Program (3DEP)
- The National Address Database (NAD)
- Census & Local Update of Census Addresses (LUCA)
- All Roads Network of Linear referenced Data (ARNOLD)

Data Committee

Workgroup

AZGeo Data Management Plan
Jenna Leveille (interim) & Ryan Johnson (interim)

This workgroups reports to both the Data Committee and the AZGeo Workgroup.

Cadastral
Jenna Leveille (interim) & Jack Avis (interim)

TBD

LiDAR
Mark Christiano & Jenna Leveille

The AGIC LiDAR Workgroup is focused on promoting all aspects of LiDAR (Light Detection and Ranging) efforts in Arizona, including information exchange to facilitate lidar acquisition and collaboration (especially though 3DEP program), the distribution of lidar related products via AZGeo, education and outreach, and the development of best practices and data standards materials.

Natural Resources
Glen Buettner & Jeremy Johnson

The Natural Resources workgroup facilitates geospatial data sharing and tool development to support natural resource work across Arizona. They provide a forum for geospatial informational exchange that enhances and supports government, tribal, private, and non-profit natural resource efforts through coordination and identification of cost sharing opportunities.

SPCS 2022
Brian Fisher & Jack Avis

The purpose of the SPCS 2022 workgroup is to organize Arizona Stakeholders so they may communicate with a unified voice regarding the National Geodetic Survey (NGS) proposed redesign of Arizona State Plane Coordinate Systems (SPCS) as well as advise the Arizona State Land Commissioner and other state agencies about potential proposals for State Statute updates regarding the Arizona SPCS.

UAS
Chuck Powell & Debby Crouse

The AGIC Unmanned Aerial Systems (UAS) Workgroup works to help organizations and individuals incorporate or contract for UAS services as well as identify or develop educational resources. Goals include building UAS mission suitability of use guidelines and flight requirements as well as identifying or developing educational materials, seminars, and other opportunities for information exchange.

Council

AGIC Council

Committee

Outreach Committee

Cheryl Thurman, Jenna Leveille & Patrick Whiteford

The mission of the Outreach Committee is to facilitate information exchange between federal, state, tribal, regional and local governments, the private sector, and professional associations. The committee is also tasked with collecting information on user requirements on matters related to geographic information systems, technologies, products, services, standards, programs and activities. The goals of the committee include:

- Increasing AGIC awareness and participation;
- Updating and maintaining the AGIC webpage and social media;
- Updating AGIC outreach materials, such as tri-fold pamphlets and AGIC newsletters;
- Supporting and participating in important GIS activities within Arizona, such as educational workshops, local user group meetings, and GIS Day events.

Workgroup

Social Media

Paul Minnick

The Social Media Workgroup focuses on building and maintaining AGIC profiles on various social media platforms, including LinkedIn, Facebook, and Twitter.

AGIC Council

AZGeo

Ryan Johnson & James Meyer

The AZGeo Work Group mission is to coordinate a sustainable future for the state geospatial clearinghouse, AZGeo, as a central repository for geospatial data and statewide geographic information system services, facilitate the advancement of AZGeo to enhance and support state, federal, and local government business systems, and to incorporate user requirements on matters related to geospatial data, services, standards, applications, and activities to improve data sharing and use.

The work group achieves this by:

- Providing a forum and structure to assess the ongoing development of AZGeo as the state geospatial clearinghouse;
- Facilitating the development of best practices, data standards, and specifications for AZGeo contributors;
- Facilitating interagency coordination and encouraging geospatial data sharing utilizing AZGeo.

AZGeo Data Management Plan

Jenna Leveille (interim) & Ryan Johnson (interim)

This workgroups reports to both the Data Committee and the AZGeo Workgroup.
