

Mission (from statutes)

- Provide a forum for informational exchange among government, tribal, private, and non-profit entities that relates to UAS uses, geospatial data, and program development
- Support and facilitate the development of best practices and educational materials relating to UAS.

2021 Meeting Dates

Regularly scheduled meetings will occur on the first Wednesday of each month, with the first meeting held in January. The frequency of these meetings may be increased or decreased, or special meetings may be scheduled, based on workgroup needs and to accommodate issues, coordination, or product development

Work Group Participants

- **Chair:** Chuck Powell, Kasey Green
- **Voting Members:** Robert Davis, Lori Grabham, Jenna Leveille, Mariah Modson, Nik Smilovsky
- **Public Members At Large:** Nick Bisley, Max Bourque, Brian Brady, Andrew Carey, Spencer Coffin, Ben Coker, Jay Corum, Virgil Coxon, Abel Federico, Tyler Fitzgerald, Seth Franzman, Brian Gootee, Jonathan Gholson, Jon Hegrans, Mignonne Hollis, Tom Homan, Lance Infanger, Thayne Infanger, Keith Larson, Martin Leveque, Roses Lockwood, Toni Malcolm, Michael Mayerle, Jim Robinson, Chelsea Scott, Elisabeth VanDerLeeuw, Joseph Wagner, Marisa Walker, John Wolcott

2021 Goals and Activities

1. UAS TECHNOLOGY INFORMATION EXCHANGE AND BEST PRACTICES DOCUMENTATION DEVELOPMENT
 - Develop and maintain a UAS Workgroup section on the AZGeo Website
 - Work with UAS experts to identify and document UAS information, solutions, best practices, and examples of projects
 - Identify best practices and considerations for writing a Request for Proposal (RFP) for UAS contracting services
 - Create RFP example/template library
 - Identify and coordinate on potential programs and issues that may affect or help benefit the Arizona geospatial community, UAS Workgroup members or the public.

2. COORDINATE UAS EDUCATIONAL OUTREACH OPPORTUNITIES

- Develop and host AGIC UAS virtual Lunch & Learn Programming
- Explore and cultivate outreach opportunities to K-12 students
 - Coordinate with other AGIC Outreach Committee to incorporate the ArcGIS Online Student Competition Program

3. EDUCATION AND TRAINING SYMPOSIUM

- AGIC Education and Training Symposium
 - Promote presentations and/or a track dedicated to issues and information on how UAS can be used to support geospatial sciences
 - Focus on geospatial output and techniques for better deliverables, data discovery and FAA updates/changes
 - Identify and secure presenters, workshops, and demonstrations
- Coordinate with conference committee
- Explore options for additional workshop opportunities outside of AGIC symposium
