

Mission (from statutes):

- Promote geospatial data sharing and appropriate strategies to support AZGeo
- Facilitate interagency coordination of geospatial data sharing and supporting AZGeo to enhance and support state, federal, and local government business systems
- Incorporate user requirements on matters related to geospatial data, services, standards, applications, and activities to improve data sharing and use

Meeting Dates: Committee will meet quarterly on the second Wednesday of the month for 2 hours

- January 8, April 8, July 8, Oct 7

Data Committee Participants:

Chairs: Howard Ward, Jenna Leveille

Voting Members: Jack Avis, Kevin Blake, Jerome Breyer, Helen Costello, Eric Feldman, Brian Fisher, Bo Guo, Ben Hickson, Boyd Larkin, Keith Larson, James Meyer, Jason Nyberg, Phil Ponce, Jason Ramsey, Susan Smith, Leslie Stovall, Jamie White, Steve Whitney, Sara Yucupicio, Jamie White, Andrew Zaffos

Public-at-large Participants (determined by attending one of the previous three meetings): Brian Brady, Glen Buettner, Ryan Burley, Crystal Carrancho, Matt Carroll, Mark Christiano, Brian Colson, Patrick Connolly-Boutin, Debra Crouse, Drew Decker, Sage Donaldson, Nicole Eiden, Daniel Fisher, Kasey Green, Elizabeth Heller, Jason Howard, Shea Lemar, Ayan Mitra, Jacob Neilson, Chuck Powell, Jill Sherwood, Aparna Thatte, Gene Trobia, David Waltz, Jeff Wolkove

---

**GOALS AND ACTIVITIES**

**Provide a Forum and Structure to Discuss Current Geospatial Data, Initiatives and Technologies**

- Coordinate demo's or presentations for each meeting demonstrating AGIC Committee/WG activities
- Support the development of Data Committee Work Group track at AGIC Symposium
  - Each Work Group to provide an abstract(s) to the Conference Committee on illustrating current activities for a Data Committee track
- Create and sponsor work groups as needed
- Identify resources required to carry out proposed activities

**Facilitate Interagency Coordination and Encourage Geospatial Data Sharing**

- Serve as a forum to facilitate informational exchange between state, federal, tribal, regional, and local governments, the private sector and professional associations.

- Promote geospatial data sharing, and the inclusion of data in the public domain, to maximize the benefit of AZGeo as a state clearinghouse data sharing platform.
- Coordinate activities with appropriate AGIC committees as required

Develop a Data Management Plan to facilitate data sharing and use of AZGeo as Arizona's state-wide geospatial clearinghouse.

- Coordinate with the AZGeo Work Group to assure data management criteria and guidelines are consistent with AZGeo development.
- Provide advocacy and support for AZGEO by assisting the Work Group with defining the roles and responsibilities
- Provide guidance on the approach to AZGeo data curation
- Provide recommended use cases
